SILENT KEY REPORT: Feb. 24, Dick, K7DDI, sent your editor an E-mail saying that Joe Revoir, KA7FUL, from Klamath Falls, passed away today. Joe has been ill for some time, and was recently in the Klamath Falls hospital. Joe has been a net control on the Oregon Emergency Net for many years. Recently, he was net control on Sunday night, second net. He was net control on Sunday first net before that. Joe was also a net control on the ORARES net. Joe often handled traffic on that net for the Klamath Falls area, Karen, N7RBO, O.E.N. net manager, reports Joe became a member of the O.E.N. in 1982, and held O.E.N. certificate number 829. Joe's wife, Ruth, was also a ham, she passed away some years ago, and held the call KA7NEN. We will all miss hearing Joe on the net very much, and our thoughts are with his family. Thanks to Dick, K7DDI, for sharing with us the picture of Joe below. Joe was 76 years old, his service was held on March 1 in the Church of Jesus Christ of Latter-day Saints in Klamath Falls. He was put to rest at the Eagle Point National Cemetery. Joe was an electrical inspector for Clackamas County. And he moved to Klamath Falls after his retirement. Joe's children, Jeffery and Jaimie Revoir of Klamath Falls survive him. In 1952, Joe served his country in the Air Force, and served in Korea. Part of this information comes from Joe's obituary, in the Harold And News, the Klamath Falls paper. (ed)

It is my privilege to announce that Larry Ballard, W7WX has been elected to Chair the OEN board of Directors. Larry was the only nominee and was affirmed unanimously by the Board. He will assume his duties on April 15th 2012.

James Boyd, K7MKN, is vacating the Chair on April 15th 2012, citing a heavy business schedule this year. He will retain his seat on the OEN Board, just not as the Chairman.

(3) NOTICE:NOTICE: NOTICE—DO YOU HAVE AND O.E.N. CERTIFICATE???

As of recent, considerable interest has been expressed in the OEN Certificate List. Several OEN Members weren't sure if they held a Certificate, some others didn't know when they became an OEN member, etc. For quite some time, Karen, N7RBO, our former Net Manager has entered this data into the computer from an old card system which appears to have been ill kept up to date by previous Net Managers. Karen cleaned up and maintained that computerized file for many years.

After sending me a copy of the Microsoft Excel file , I sorted the data into several differing formats to make it easier to look them up and posted them on the OEN Web Page. One format is by your **Last Name**, another is by your current **Call Suffix**, and lastly by Certificate Numbers, one in **Ascending Order**, the other in **Descending Order**. The link to the Certificate Page is:

<http://www.k6ugs.com/OEN%20Membership%20Certif%20List.htm>

Just click on this link above and it will take you to the Certificate Page where you can select what sequence listing you would like to look for. Some of the information for certain calls may be blank or unknown; other info may have changed due to people moving or becoming Silent Keys. So if you see any outdated information that needs to be corrected, please let our New Net Manager, KG7UY know so that he can update the new file he is creating with valid data.

If you have any suggestions on how to better present this data to the membership, please let me know.

Ruth expects to be back home and on the radio in a couple of days. (ed)

APRIL 15 UP DATE ON RUTH: Ben, N7RBI, told us in an E mail that Ruth was back in the hospital with complications from her recent surgery. She was home two days before going back, and is expected back home on the 17. UPDATE: April 17 sees Ruth back home and doing fine. (ed)

THE EARLY DAYS OF THE O.E.N. Tnx to Dick Suber, K7DDI, for sharing.

The first emergency handled by the net was on January 3, 1949, when a weak code station requested that a phone call be made to a veterinarian in Bend to attend to a sick cow. The call was handled and the cow recovered. The calls of the stations performing this service have been lost.

In the beginning there were 89 towns, 55 calls; March 1953, 62 stations, 17 mobiles; March 1954, 111 stations and 29 mobiles; March 1955, 122 stations and 68 mobiles.

On December 13, 1949, the net was requested to assist in the search for Ruth Aberle, age 15, who had become lost from her party while looking for Christmas trees in a mountainous area

(6) near Kelso, Washington. The net cooperated with Cowlitz County Sheriff's Office , Washington State Patrol and Portland City Police in the search and Ruth was found two days later in good condition.

In the same year, on Christmas day, two small boys became lost in the Glendale, Oregon area and the net was alerted to assist the searchers with communications. However, the boys were found before large search groups were formed and the search was terminated.
