Subject: Nomination of New OEN Data Base Manager

Greetings,

This is to request a vote from OEN Board Members regarding the proposed nomination of Debbie, KB7DS, as our new OEN Data Base Manager and Board member. Please reply with your vote by Friday December 16th.

Debbie is an extra class operator residing in Grants Pass with Joe, AA7JS. She has an excellent background in business and Microsoft Office programs. Here is an excerpt from her QRZ page with some background:

“My license is new, but I’ve been around Amateur Radio all my life. My Dad was a ham and taught me Morse code when I was young. I remember him calling CQ late into the night. My husband (AA7JS) is a long-time ham and inspired me to get my license. His expertise, enthusiasm and encouragement have helped accelerate my competence but there is still so much to learn. Josephine County Emergency Communications (JCEC) and Josephine County Search & Rescue (JoCo SAR) are my focus. JCEC stays busy, when not supporting searches and training exercises, by providing radio communications for many local events. There’s never a dull moment with lots of work behind the scenes and lots of fun and adventure!”

Debbie has been in the process of learning our Excel database system for the past month or so and she has done quite well in mastering all aspects of the process. I would highly recommend a confirming "Yes" vote from the Board. If approved, Debbie would continue working in parallel with me through the rest of December and then formally take over on the first of January. She will not, however, take over the Net Secretary position, so I will keep that for a while until we find a replacement.

Regards & 73's From W7HLR,

Larry Ross Hiatt

Interim Net Data Base Manager/Secretary
W7OEN - The Oregon Emergency Net

-Here is the second email showing results of the voting process via email.
